

MERTON TERRY IS SERIOUSLY HURT

Crothersville Man in Critical Condition as Result of Injuries Sustained in Accident.

INTERURBAN CAR HITS BUGGY

Driver Thrown Thirty Feet and Sustains Fracture of Skull—Removed to Local Hospital.

Merton Terry, aged twenty-five years, of Crothersville, was seriously and probably fatally injured in a crossing accident which occurred about 7:30 o'clock Friday night one square south of the interurban station at Crothersville when a north-bound Indianapolis & Louisville car crashed into a buggy in which Terry was riding. He was thrown about thirty feet, falling on a cattle guard along the track. He suffered a fracture of the skull and it is feared that he is hurt internally. He was brought to the Schneck Memorial Hospital in this city about 9:30 o'clock Friday night. It was stated there this afternoon that his condition is very critical and that his recovery is doubtful. He is greatly weakened by hemorrhages from the right eye and ear and his heart action is said to be unsatisfactory.

Terry had been attending a public sale in that vicinity and was returning to his home when the collision occurred. The accident took place on a curve in the road. The team took fright at the car and became unmanageable and pulled the buggy upon the track in front of the approaching car. He was driving a team of horses hitched to a light buggy.

The buggy was completely demolished but the horses escaped unhurt. Terry was thrown from the vehicle and when picked up thirty feet away from the crossing he was unconscious. A Crothersville physician was called who after an examination suggested that the injured man be brought to the local hospital as soon as possible. He suffered a fractured skull and cuts and bruises about the body and head. He was removed to the traction station after the accident.

BLOOMINGTON WINS FROM LOCAL HIGH SCHOOL, 38 TO 16

Purple and White Representatives Fall Before Speedy Attack of Bloomingtonians.

Bloomington high school proved too strong for the local school last evening, and the locals were handed the short end of a score of 38 to 16.

The lads of the university town uncovered an attack that was dazzling fast, and their familiarity, with their big floor was also to their advantage. The local players put up a game fight and fought until the last whistle, but the result was never much in doubt.

Inability to hit the basket was also a big factor in the defeat of the locals. Time and again goals were missed by the narrowest of margins, and if fifty per cent. of the attempts at goals had succeeded, there would have been a different story to tell.

SHAMROCKS WIN.

Crothersville Independent Team Downs H. S., 49 to 15.

The Shamrocks, of Crothersville, composed mostly of former high school players, defeated the Crothersville high school team last night by a score of 49 to 15.

CHRISTMAS GOOD CHEER FUND SHOWS AN INCREASE

Charity Association will Need About \$100 to Carry Out Present Holiday Plans.

G. A. R.....	5.00
E. W. Ahlbrand.....	5.00

Total	\$52.50

The Christmas Fund shows another increase today which afforded encouragement that the amount contributed will be sufficient to take care of most of the appeals that have been and will be filed before the last of next week. It is believed that the Fund will be doubled with the contributions that will come during the week just preceding Christmas. The Charity Association needs at least \$100 to carry out its work.

An unusual case has come to the attention of the Association. It is in a home where one sister is working to take care of an invalid sister. The girl who is fortunate to have her health is devoting her life to the care of her invalid sister. There are but the two in the family. But the income of the one sister is just enough to provide the actual things that are needed for the preservation of life. She is able to buy sufficient clothing, fuel and provisions with her meager earnings only by the practice of the strictest economy. To these sisters Christmas Day will mean nothing unless they are assisted. The Charity Association wants to send to this little home a basket of fruit and some provisions which the girl is unable to buy with her weekly wages. She is sacrificing her life for her sister and does it willingly and gladly but by doing so all the pleasures which are enjoyed by other girls of her age are barred against her.

The Charity Association wants to make this Christmas a real Christmas for every home in this city. Co-operation by the public in making small donations to the Christmas Fund will make this possible.

MEETING OF HISTORICAL SOCIETY IS POSTPONED

The semi-annual meeting of the Jackson County Historical Society which was to have been held this morning was postponed on account of the lateness of the trains and the small number of members who were present at the hour set. R. A. Cox, president of the Society, said that a date for the meeting will be fixed later and that the members will be notified. Several important matters of business are to come before the Society at its semi-annual meeting and it is desired that a large number of the members be in attendance. The Indian boundary line marker was to be presented to the township at this meeting. The formal presentation will take place later.

ELECTION IS HELD IN TEN TOWNSHIPS

Road Supervisors Chosen This Afternoon Under Law Which was Passed by Legislature in 1915.

LITTLE INTEREST MANIFESTED

No Election Held in This Township Which has Less than Ten Miles of Dirt Roads.

With the memories of the election of November 7 still fresh in their minds, the voters—that is some of them—in ten of the eleven townships in Jackson county went to the polls again this afternoon—this time to elect road supervisors as provided by the law which was passed by the state legislature in 1915. Little interest was shown in the election in most townships and it was expected that a light vote would be cast. In only a few districts were there any contests. This is the first time that the supervisors have been elected in this manner as the law did not become effective until 1916. The act provides that the election shall be held on the second Saturday after the first Monday in December 1916 and on the same day two years thereafter.

No election was held in Jackson township which has less than ten miles of unimproved roads the amount that is required for the election of a supervisor. If there are less than ten miles of dirt road in any township the trustee may serve as road supervisor. This is the only township in the county that does not have a road supervisor. In some townships more than one will be elected.

The number of road supervisors in any township is limited by the law to four. A supervisor is paid 25 cents an hour for his work and is not allowed to hold any other office.

COUNCIL MASONS INITIATE CLASS OF 27 CANDIDATES

Many Prominent Out of Town Masons in Class Which Received High Degrees Last Evening.

At the last stated convocation of the year of Seymour Council No. 38, Royal and Select Master Masons, held last evening in the Masonic Temple, the council degrees were conferred upon a class of twenty-seven candidates, many of whom were from out of the city.

The meeting was largely attended, prominent Masons from Scottsburg, Austin, Crothersville, Brownstown, Medora and many other towns being present. Following the degrees, which were conferred by the local council, an elaborate three course luncheon was served in the banquet hall by the ladies of the Eastern Star. Entertainment was furnished by two vaudeville teams from the Majestic theater. In the program which followed the luncheon, W. C. Young, Illustrious Master, presided as toast master, and introduced many of the local and visiting Masons, who responded with brief talks.

The meeting brought to a close the most successful year Seymour Council has even enjoyed. Under the leadership of Illustrious Master Young the membership has been more than doubled, a total of ninety-seven candidates having been given the degrees during the year. This record is surpassed by only one Council in the state, that of Indianapolis No. 2, a much larger Council.

DECEMBER TERM TO CONVENE MONDAY

Judge Swails Closes Busy Term in Lawrence Circuit Court Today—Grand Jury Recalled.

232 CASES ARE DOCKETED

Expected That Term Will be Busy After it Reconvenes After the Christmas Holidays.

With a total of 232 cases docketed, it is expected that the December term of the Jackson circuit court which convenes Monday will be a busy one. The court officials have completed all arrangements for the opening of the term. The petit jurors were summoned by the sheriff after the names were drawn last Monday. As this is not the regular term for the grand jury investigation this body will not be called until an emergency arises which is not expected at this time. The grand jurors were selected the same time that the names of the petit jurors are drawn, but the names are not disclosed unless there is need for a grand jury investigation of some alleged law violation. The grand jury meets but once a year in this county.

Of the 232 cases which appear on the court docket, 102 are civil actions. Fifty-six probate cases have been filed and twenty-seven dissatisfied wives and husbands are seeking legal separation. Thirty criminal cases appear on the docket. Some of these will not be tried this term. All the defendants have not been arrested and the docket does not disclose their names until after the warrants have been served on them. Seventeen claim cases are docketed. It is expected that a number of other cases will be filed from time to time during the term.

Several state cases are scheduled

PEACE PARLEY IS NEW SUGGESTION

Germany Willing to Give the Allies Full Statement of Terms at Such a Conference.

PROPOSED BY BERNSTORFF

Ambassador Says Teutons Will Discuss Disarmament and Permanent Peace.

Washington, December 16—Germany is willing to give the allies a full statement of terms at a peace conference, German Ambassador Von Bernstorff officially announced today following a conference with Secretary of State Lansing.

At the same time Germany is also ready to discuss disarmament, creation of a league to guarantee permanent peace and other such subjects as would arise from such peace negotiations.

The ambassador's visit was to obtain official confirmation of this country's intention not to supplement Germany's peace proposals at this time.

The British embassy has advised the foreign office not to return a flat refusal of the German peace proposals for the sake of neutral opinion, it was learned today. Because of the close understanding between the allied embassies here, it is believed the French and Russian embassy have taken the same action.

The movement of troops started today and the terms of the demands will be carried out as rapidly as possible. Satisfaction was promised for the attacks made on French troops in Athens and arbitration has begun on arrangement of the details. The reply expresses hope that the allies will reconsider their blockade decision.

Barnard Recommends Liberal Use of Meat

(By H. E. Barnard, Pure Food and Drug commissioner for Indiana written for the United Press.)

Indianapolis, Ind., December 16.—Meat is a real food for man. It contains its nutrients in an early assimilated form, and in such quantities that it is not necessary to eat a large amount of coarse food to be sufficiently nourished.

We probably eat too much meat, however. We certainly spend more money for meat than we should. If we want to save on our meat bills, we can cut down our meat diet without noticing it by substituting other articles rich in protein and at less cost.

The housewife who may wish to serve other food in the place of meat dishes, has many materials at her disposal. The most common substitutes are fish, milk, dried beans, peas and cheese.

We do not eat enough fish. Probably this fault is not our own but that of the fish dealer, who has not learned to take care of fish so that it is always fresh and satisfactory. When the meat dealer does, fish will be more appreciated than now. When good fish is obtainable, however, it should be used more frequently than now. If every other

day were fish day and we did not have to wait for Friday for fish, we would be just as well fed and more cheaply.

The peanut should also be added to the list of meat substitutes. It is common food in the south and is being used more and more in the north. When peas and beans are served, since they are lacking in fat, they should be accompanied by such fat as salt pork, bacon or butter. A pint of dried peas and a half a pound of pork contains as much protein as a pound and a half of meat. It is also rich in starch and fat and is therefore a more nearly balanced food.

Evansville, Ind., Dec. 16.—W. G. Lee, president of the Brotherhood of Railway Trainmen, spoke Friday at the Central States conference of rail and water transportation. EMERGENCY HOSPITALS TO BE ESTABLISHED BY B. & O.

Squads of Employees Will be Instructed to Administer First Aid to Injured.

Emergency hospitals are to be established by the Baltimore and Ohio railroad at all of the large shops on the system in order to provide immediate treatment for those meeting with accidents in industrial employment in the shops or terminals, besides which it will be possible for the company's medical staff to look after the general health of the employees and their families.

The hospitals will be a part of the welfare program for the betterment of working conditions, improving the health of employees and rendering prompt first aid treatment.

Squads of the employees in the various shops, chosen from the older and cooler men, will be instructed in a ten weeks' course in first aid treatment, the aim being to select men who have served on Safety First committees. A button, in red and blue colors, cross-sectioned with a large white cross and bearing the inscription "First Aid and Sanitation," will be worn by the members of each squad to distinguish them in time of emergency.

Dr. E. M. Parlett, chief of the company's welfare bureau, is directing the work of organizing the various squads and in installing the emergency headquarters at the Mount Clare Shops, Baltimore, explained to the men that "the modern idea in first aid treatment is to take the hospital to the patient rather than lose any time, which is very precious in some instances so far as the matter of life and death is concerned in conveying a patient from the place of injury to a hospital. There is more in the knowledge of what not to do in rendering first aid treatment than in mastering many facts concerning questionable procedures, and only the simplest and most important facts are taught and recommended. This will be the method of instruction for the picked squads."

The emergency rooms will be ample in size, have tiled floors, enameled walls and ceilings, rounded corners to prevent dirt collecting, modern plumbing arrangements, special lighting features to aid the surgeons and all other requisites of a modern hospital.

NO COMMENT BY U. S. ON PROPOSAL

Peace Proposition to be Forwarded
by This Government as Ger-
many Requested.

COMMUNICATIONS ABOUT SAME

Only Difference of Few Words Due
to Translations Noticed by
State Department.

Washington, December 16.—President Wilson has decided that the notes of the central powers proposing a discussion of peace to the entente allies will be sent forward by the American government acting as intermediary without any accompanying mediation offer of its own. He has not determined whether any action in behalf of peace will be taken later by the United States on the own account, but is holding himself in readiness to serve in any way possible toward bringing the warring nations together.

The course to be pursued was made known after the President had conferred with Secretary Lansing, and after a prolonged Cabinet meeting. It was stated that the delay in forwarding the notes to the entente capitals was due to the fact that the messages received from Germany, Austria-Hungary and Turkey, identical in substance, differed slightly in phraseology as a result of different translations. They probably will be put on the cables tomorrow.

Since the first note arrived, the one from Germany, the President and his closest advisers have been absorbed in study of the situation created. The Austrian note followed, and the one from Turkey came late today, too late to be translated for the Cabinet meeting.

Those from Germany and Austria have been gone over carefully by the President and Secretary Lansing to make certain of their meaning, and so that they may be sure to properly represent the intent of the central powers.

The fact that the Cabinet meeting Friday lasted more than three hours, and was the most prolonged of the year, attracted profound attention in official circles and led to all sorts of speculation. It was explained authoritatively later, however, that the meeting was devoted largely to consideration of departmental matters, and had been prolonged because it was the first time since the campaign that all the members had been present.

In other quarters than the White House it was learned that some word indicating the official attitude of the entente allies toward the peace proposal is being awaited with the deepest interest by the American government. The President will not consider injecting the United States into the situation until he is thoroughly familiar with all its phases.

Secretary Lansing, explains the delay in transmitting the communications of the central powers, pointed out that the German note was translated into English by Charge Grew at Berlin, and the one from Austria by Ambassador Penfield at Vienna, while the Turkish note came to the State Department in French. As the communications were intended to be identical, the State Department does not desire to transmit three different versions, and when all three are in hand tomorrow, a plan to avoid this will be determined upon.

In England France and Japan this government represents all three Teutonic countries, and will therefore

Speaking of the fine winter weather,

Quick Cold Relief

is usually found through the prompt administration of a mildly laxative, dispersive tonic—one that will scatter the inflammation, remove the waste, and help Nature to build up resistance.

Peruna is That Tonic.

Its action is prompt, usually very effective, and its use is without harmful effects. Every household should keep it at hand for this purpose, and every catarrhal sufferer should regularly use this reliable remedy.

The tablet form will be found very convenient. A tablet or two at the very beginning of a cold will frequently prevent its development, and these tablets may be taken regularly with beneficial results.

Many prefer the liquid form which for nearly half a century has been the reliance of the American Home.

Both are good. Your druggist can supply you.

If it wasn't for the railroad fare and the way she acted in November, we might think of spending the rest of the winter in California.

The dispute about who wrote the famous classic, "There'll be a hot time in the old town tonight," promises to become almost as notorious as the age-worn—but ever present Shakespeare-Bacon wrangle.

Too Thin.—Mildred had just had her first dip in the ocean. "How did you like it, dear?" asked her mother as she fastened up the little six-year-old's frock. Music Lovers Take Notice.

We have with us a little machine called the Autophone. It is to the Music World what the Ford has been to the automobile world. It sure is a wonder, plays all disc records and plays them well, has plenty of tone volume, each machine is equipped with a Sunburst Reproducer which recreates the music from all records.

They are a high type of Machines, but not being advertised, we are able to sell to the public at a very low price, from \$10.00 on up.

Sure would be a nice Gift for your home, and a piece of furniture that you will always be proud of.

We don't ask you to take our word about this Autophone, come in and see and hear it, and then pass judgment upon it.

We can save you money and give you an Instrument that will do more than any other machine in the city. Don't fail to see the Autophone before you buy.—Truly yours,

TROUBLES OF FIVE YEARS ARE OVER

Clifford Roberts Gains First Real Relief From Tanlac, Master Medicine.

South Bend, Ind., Dec. 15, 1916.—"I've tried lots of medicines in the last five years but I never tried one that benefited me as much as Tanlac," Clifford Roberts, of 129 North Birdsall street, this city, an employee of the South Bend Brewing Bottling Works, said on November 7.

"For the last five years I've suffered from stomach trouble and indigestion. My appetite was very poor and after eating only a little food, gas would form in the pit of my stomach, causing me great annoyance and making me feel uncomfortable for a long time. My stomach was soured almost constantly. I was often bothered with spells of dizziness.

"In all these five years I've gained my first real relief from Tanlac. I've taken two bottles of Tanlac now and the soured condition of my stomach has completely disappeared. My appetite has improved and I enjoy my meals to the fullest extent now. The dizzy spells are a thing of the past. In fact, I'm improved generally and am feeling fine since taking two bottles of Tanlac."

Tanlac, the Master Medicine, is a tonic invigorant, blood purifier and general system cleanser. It's healthful action affects every portion of the body. Tanlac is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, loss of appetite and the like.

Tanlac is now being specially introduced and explained in Seymour at the H. H. Carter Drug Store.

HER DEATH NEAR

So Everyone Thought, But Is Now Well And Stronger Than Ever.

Newton, Mo.—"I can certainly speak a good word for Cardui, the woman's tonic," says Mrs. Jay Rhoades, of this town. "I suffered for 12 years with my right side, and the last three years, I would have a bad spell with it about every three months. I would get so bad off, every one would think I could not live.

The first of July, I began taking Cardui, the woman's tonic, and I haven't had a bad spell since soon after I began taking it.

Before taking Cardui, I was so irregular, and, at times, I could hardly stand on my feet. Now, I can clean house, and do any kind of work without its hurting me in the least.

Cardui will surely do for other women, what it did for me. I am telling all my neighbors about it."

Cardui is a mild and effective tonic for women, that has been found, by actual use, during more than 50 years, to relieve the ailments to which all women are peculiarly liable.

Card-u-i has helped thousands. Why not you? Try it. NCB

See Our Complete Line of PIANOS and Player-Pianos

Why this store sells pianos cheaper than any other in this section

WE BUY pianos and player-pianos from one of the greatest manufacturers in the world—the House of Baldwin. This company operates two immense factories at Chicago and Cincinnati. They produce thirty thousand instruments a year. They make every part of every instrument. They have reduced the manufacture of pianos to a science. Big output, complete facilities and systematic economy enable them to produce high-grade pianos at the lowest cost. Their instruments cost us less than any others of supposedly equal grade. We can sell cheaper because we buy cheaper.

WE DEAL directly with the manufacturers. We are, in fact, one of the two thousand representatives that constitute the House of Baldwin. The instruments

pass directly from the factory to us. We pay no profits to jobbers or middlemen of any kind. The only amount we pay above the actual cost of making is the manufacturing profit. This is very small because the House of Baldwin prospers through volume of business—not because of exorbitant turnover on each instrument. We can sell cheaper because we do not have to pay several profits.

WE maintain no expensive selling force. Every piano is sold by us. We do not have to pay agents' commissions. We ask you simply one fair profit above the rock-bottom price of the instrument to us. Our personal, simple, individual way of doing business saves many a dollar on every sale, thus enabling us to mark every instrument unusually low.

By coming to this store for piano or player-piano you can be sure of eliminating all extra profits, you can enjoy the many advantages of dealing practically directly with the factory and you can get one of the famous House of Baldwin instruments that are known the world over for artistic excellence, remarkable durability and unequalled all-round value.

Temperance Notes

BELIEVED IN PROHIBITION.

The late James J. Hill, the railway magnate, was an advocate of national prohibition and would shortly have made a public statement indorsing it, was the assertion made by Prof. Irving Fisher at St. Louis, when he brought before the resolutions committee of the Democratic party the matter of a prohibition plank in the party platform. "I received a letter from Mr. Hill," said Professor Fisher, "in which he declared that the greatest factor in the promotion of crime, disease and poverty in this nation was the liquor traffic, and that he believed national prohibition was the best solution of the problem."

"BEER SMELL IS OUT."

This is the sign, in big display type, over a shoe shop in the city of Denver. The proprietor occupies one of the buildings vacated by a saloon-keeper on January 1. He calls himself "the shoe merchant extraordinary of Denver, Omaha and Lincoln," and he urges former saloon patrons "not to cry over spilt booze," but to patronize Budd's Shoe Shop.

CURSE FIRST BREWER.

Who first brewed beer prepared a pest for Germans. I have prayed to God that he would destroy the whole brewing industry. I have often pronounced a curse on the first brewer. All Germany could live on the barley that is spoiled by the brewers. Germany would be much richer than she is if so much beer were not drunk.—Martin Luther.

MUST HAVE BOYS.

A saloon can no more be run without using up boys than a flouring mill without wheat, or a sawmill without logs. The only question is, whose boys—your boy or mine—our boys or our neighbors'.

DECREASE IN CRIME.

The district attorney's office in Denver reports 50 per cent decrease in criminal cases; Pueblo's commissioner of safety, 140 per cent fewer arrests than during the corresponding months of 1915. Both give prohibition the credit.

GRAIN FOR LIQUOR.

Only about two per cent of the five leading grain crops of the country is used for the manufacture of liquor.

Under prohibition the mill will need 100 per cent of all the grain the farmers can raise.

UNEXPECTED GAIN.

The Denver Gas and Electric Light company looked for a loss of about \$15,000 a month, due to the loss of saloon trade, but, to its surprise, made a gain of \$10,000 in the first dry month.

SUNDAY SCHOOL LESSON

December 17 (Fourth Quarter) Lesson 12.
THE HOLY CITY. Rev. 21:1-4; 22-27.

GOLDEN TEXT.—Behold, the tabernacle of God is with men, and He shall dwell with them, and they shall be His people. Rev. 21:3

The topic of this lesson is "The Holy City," but only the first two verses and the last verses refer to the city. Verses 3 and 4 refer to this earth when it shall be a New Earth wherein dwelleth righteousness (verse 1; II Pet. iii, 13; Isa. lxxv, 17; lxxvi, 22). Only in these four passages do we read of the new earth, and it is possible that the passages in Isaiah refer to the millennial earth when the devil shall be bound in the bottomless pit for a thousand years (Rev. xx, 1-6), while the other two may refer to the ages beyond the millennium.

The time will come when this earth so long cursed by sin and Satan, shall be filled with the knowledge of the glory of the Lord, and the nations shall learn war no more (Num. xiv, 21; Isa. ii, 4; xl, 9; Hab. ii, 14; Mic. iv, 3). A king shall reign in righteousness, and the result will be peace, quietness and assurance forever (Isa. xxxiii, 1, 17). The way in which God will bring this all to pass is so plainly written that only those who refuse to believe that God means what He says can fail to understand it. Following the letters to the churches of last week's lesson, we see in chapters iv and v the completed church gone from the earth to be with Christ in glory, and we do not find the church again in the book till we come to the marriage of the Lamb in chapter xix and then the return of Christ in glory, as the rider upon the white horse, accompanied by all the armies in heaven, to bind the devil and send his associates to the lake of fire and set up His millennial kingdom of righteousness.

The church being taken away, we have in chapters vi to xviii, inclusive, an account of the great day of the wrath of the Lord, of which the prophets have so much to say—the time of tribulation such as never was and never will be again (Dan. xii, 1; Jer. xxx, 7; Matt. xxiv, 21; Rev. xvi, 18, 19). Which the Lord shall put an end to by His coming in glory. In those days the nations shall gather under one leader against the Lord and against His people Israel (Rev. xiii, 4-8; xvii, 12-14), and this leader shall be worshipped by all the world, all whose names are not in the book of life, and he shall be the devil incarnate, the antichrist. No such person is yet in sight, and there is as yet no nation of Israel against whom they will gather, but many things may develop from the present European conflict.

After the church shall have been taken and the tribulation begun a great multitude from all nations shall be saved who are said to come out of the

great tribulation (Rev. vii, 14, R. V.). Many of these may have to seal their testimony with their blood. Then in chapters vii, 1-8; xiv, 1-5, we read of 144,000 of the twelve tribes of Israel who are neither the church of chapters iv and v nor the tribulation saints of chapter vii, but just what they are said to be—sealed ones of the tribes of Israel who will have their own place in the kingdom. By the judgments of the tribulation period this great age shall close and a new age begin, with Jesus Christ as Israel's Messiah on the throne of David, as we shall see in our next lesson. Then He shall begin His reign, which has not yet begun, for He is on His Father's throne, waiting for the time when He shall come to His own throne and reign till He shall have put all enemies under His feet. The last enemy to be destroyed will be death (Rev. iii, 21; I Cor. xv, 25, 26).

From Isa. lxxv, 20-22, it looks as if there would be death during the millennium, but not as now, for one dying then at the age of 100 will be said to die in childhood, and many may live right through, but in the new earth after the thousand years, when the tabernacle of God shall be with men and He shall be as familiar with men on earth as He was with Adam and Eve in Eden, then on this earth there shall be no more death, neither sorrow nor crying, neither shall there be any more pain, "and there shall be no more curse, but the throne of God and of the Lamb shall be in it, and His servants shall serve Him" (chapters xxi, 3, 4; xxii, 3-5).

Now, as to the holy city, the new Jerusalem, the bride, the Lamb's wife, which shall need no light of sun or moon, because the glory of God and the Lamb shall be the light of it and in the light of which the saved nations of earth shall walk and shall bring their glory and honor into it (xxi, 2, 9-11, 22-26). I can only gaze and gaze and wonder and adore until I shall find myself dwelling in it as my eternal home. It is described as to its form a perfect cube, 1,500 miles long and broad and high (verse 16), reminding us of the holy of holies in the tabernacle and in the temple, each of which was a perfect cube as to form and in which there was no light but the glory of God above the mercy seat between the cherubim. What may be signified by foundations garnished with all manner of precious stones, walls of diamond, gates of pearl, streets of gold. I expect some time to understand better than I do now, and, dear reader, you will be there, too, if only your name is in the book of life (xxi, 27; Luke x, 20).

Because of the extreme cold, high winds and drifted snow, several of the trains arriving here today were late. The B. & O. Southwestern train No. 4, eastbound, due at 9 a. m. did not arrive until shortly after 12 o'clock. It is said that the wind across the open country in Illinois was very high during the night and that in some place the tracks were banked with snow resulting in a loss of time. No. 1, westbound, due at 11:19 a. m. arrived here at the same time that No. 4 pulled up to the station. Some of the south bound trains on the Pennsylvania Lines were also delayed.

PUT your extra money in diamonds. Enjoy their possession and profit by their increase in value.

As a savings account, diamonds are better than gold, for they are constantly increasing in value.

The demand for diamonds grows steadily. The mines are few and it costs more each year to operate them. Therefore their continued advance.

We can offer you some excellent stones, both mounted and unmounted, anyone of which will make you a splendid investment.

Your immediate inspection of them, places you under no obligation.
